

HIJYENVILLE CLEANING SYSTEM (HTS)

The first hygiene system in the world
for all toilets and urinals!

* "Hijyenville" Exact solution for more hygienic, more pleasant smelling and cleaner toilets.

* Revolutionary system that out performs all other hygiene system.

* One single system application provides the perfect solution at toilets

ALL-FIXTURE HYGIENE IN ONE SYSTEM

Meets washrooms manager's needs:

- * Easier to service and maintain
- * One system that's suitable for 99% of all toilets and fixtures
- * High performing cleaning formulation with fragrance for improved washroom standards
- * Revolutionary bag refill – less storage, less waste
- * Biological cleaning formulation eradicates 99.9% of bacteria in all toilets and fixtures
- * One refill can keep fixtures clean and germ-free for up to 90 days
- * The system pumps sanitizing fluid to toilets, urinals, tanks, concealed and touch-free fixtures

One simple 10 second conversion creates the world's best cleaning and deodorizing system

- * Ideal for washrooms with persistent odour problems caused by high traffic use or older fixtures
- * High levels of deodorizing and fragrance eradicate historic, persistent or traffic related bad odours
- * The system drips cleaning and bacteria eradicating fluid directly to the fixture while concentrated fragrance is dispersed into the air using revolutionary wick technology
- * The HTS Fragrance Booster Fan can be fitted to disperse even higher levels of fragrance further into the room

- * HTS refill, contains 100 million enzymes per millilitre
- * Bio enzymes multiply and eradicate surface contamination
- * Bio enzymes target urea and waste
- * Biological formulation eradicates bacteria fast
- * Safe in septic tanks
- * Contains no biocide
- * Kind to pipes and tank fittings

WHY HTS ?

World's most environmentally friendly refill

The E-bag refill collapses fully as it empties, creating less disposable waste when it comes to replacing the refill.

1 box of E-bag waste = 3 pallets of other toilet & urinal waste

Removes uric scale from fixtures & pipes

* highly concentrated biological formulation with fragrance for professional use

Surface stains visibly removed

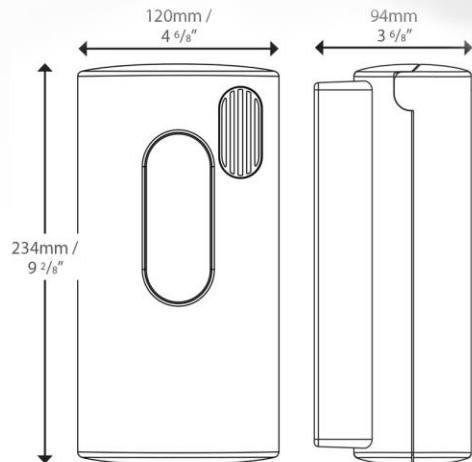

* long lasting foaming action gives visual proof that fixtures are clean and safe to use

Attacks germs – not pipes

* pipe-friendly formulation contains no harsh or corrosive chemicals

Fresh and clean air

* Modern, high quality fragrance for professional long-lasting intensity and quality

Compliant, refill labels meet new REACH regulations, supported by reliable technical specifications

Compliant, dispenser meets WEEE regulations

ECHA registered materials and components used in aerosol refill product

Dispenser and unique e-bag refill can be recycled or disposed of according to local regulations
